

METAL

in the property's collection container or to an eco take-back point

- Aluminium foil, tins and lids
- Lids, caps, closures
- Non-deposit beverage cans
- Small metal items, such as pots, frying pans, cutlery, scissors and hand tools
- Food cans
- Casings of tea lights and outdoor candles
- Empty aerosol cans

How to recycle?

- Empty packaging only.
- Deliver packaging containing residues of dangerous substances or pressure (e.g. paints, chemicals, oils, hairspray) to a hazardous waste reception point.
- Deliver large metal items to a sorting station.

What's the outcome?

New metal packages, bicycle frames, shovels and car parts.
